

INFORMATION SECURITY POLICY

We are committed to:

Documentation, implementation, certification and continuous improvement of our information security management system by fulfilling the requirements of the ISO 27001 standard,

Carrying out activities to develop technical and behavioral competencies to raise awareness among all employees in line with security incidents, measures taken and recommendations,

Systematic management of risks that may arise for information assets, compliance with all legal regulations and contracts related to information security, ensuring that our organization's security policy complies with the three main security rules defined as confidentiality, integrity and accessibility, the acceptance, implementation and improvement,

Ensuring the security of personal data and confidential information of our customers and other stakeholders,

Continuous monitoring of cyber security risks and ensuring that they are minimized.

Göksal GÜNGÖR
General Manager
